

Exploring The Needs of Middle Eastern Young Adults with Intellectual Disabilities (ID) during Health Care Transitioning to Adult Care

We are looking for:

- Middle Eastern Young adults ages 14-24 years with intellectual disability and their caregivers
- Living in Washington State
- Can complete a 1-hour interview three times

Participation in this study is *voluntary*

Study Purpose:

- Share the experiences of Middle Eastern young adults with ID and their fam during healthcare transition from pediatric to adult services
- Explore the quality of life and healthcare access of Middle Eastern young adults with ID

Study Activities:

- Young adults and their caregivers will:
 - Participate in 3 interviews
 - Complete a quality of life measure twice at the enrollment and exit
 - Complete a photo narrative project related to healthcare transition
- Most of the study activities will occur virtually, however, one in-person visit might be required
- Some of the study activities will take place at Open Doors for Multicultural Families
- Interviews may be conducted in Arabic or English based on preference

Compensation:

- Each family will receive a \$100 gift card for completing all study activities
